NSEF Happy Paths

End-to-end procure-to-pay happy path (Intake → CXO → Sourcing → PR → PO → GRN → Invoice).

`testSuiteNSEFhappyPATHS.spec.js`

NSEF Happy Paths

#	TEST CASE	TAGS
1	Create CXO with all mandatory fields → verify BRF auto-populate → Submit	@CXO @Smoke
2	Create Intake → fill all details → Submit → approve until Released	@Intake @Smoke
3	Open saved Intake from listing → Process → Send for Sourcing	@Intake @Sourcing
4	Quote the RFX → foreclose	@Sourcing @Quote
5	Award the RFX → wait for auto-created Purchase Requisition	@Sourcing @Award
6	PR edit → submit → status Submitted	@Requisition @PR
7	Submitted PR auto-processes → PRC (Processed) → PO (Completed)	@Requisition @PRC @PO
8	Completed PR → open PO via conversion → GRN → approve until Inwarded	@PO @GRN
9	Invoice for the PO (matched to its GRN) → approve until Pending Sync	@PO @Invoice
10	Acknowledge the Pending Sync invoice via API → status becomes Accounted	@PO @Invoice @Ack
11	Pay the Accounted invoice → Submit → payment shows Completed	@PO @Invoice @Payment

CXO Create — Positive

#	TEST CASE	TAGS
12	Expand-all reveals the form sections and their fields	@CX0 @Positive

CXO Create — Negative

#	TEST CASE	TAGS
13	Submit empty form is blocked with a "title required" toast	@CX0 @Negative
14	Submit empty form is blocked with an "Item Details row required" toast	@CX0 @Negative
15	Empty form flags every mandatory section with an error badge	@CX0 @Negative
16	Empty form shows the expected mandatory-field error counts per section	@CX0 @Negative
17	Submit with sections expanded shows a red border on unfilled mandatory fields	@CX0 @Negative
18	Title-only submit clears the title error but stays blocked on other sections	@CX0 @Negative
19	Cancel from the create page leaves the form	@CX0 @Negative

CXO Create — Edge Cases

#	TEST CASE	TAGS
20	Whitespace-only title is accepted as-is (not trimmed, no title error)	@CX0 @Edge
21	Special characters / emoji are accepted in the title	@CX0 @Edge
22	Very long title (300 chars) is accepted in the title field	@CX0 @Edge
23	Qty field rejects negative values (minus sign stripped)	@CX0 @Edge
24	Qty field accepts decimal values	@CX0 @Edge

CXO — Revert Pending Budget

#	TEST CASE	TAGS
25	Create + release a CXO → More → Revert Pending Budget → amount + reason → Submit	@CX0 @RevertBudget

CXO — More Dropdown (Released CXO)

#	TEST CASE	TAGS
26	Clone a Released CXO → pre-filled clone form → Submit → approve until Released	@CX0 @Clone
27	Amend a Released CXO → edit title → Submit with reason → approve until Released	@CX0 @Amend
28	Mark Processed a Released CXO → More → Mark Processed → reason → status Processed	@CX0 @MarkProcessed
29	Cancel a Released CXO → More → Cancel → reason → status Cancelled	@CX0 @Cancel

CXO — Document (Regenerate + Download)

#	TEST CASE	TAGS
30	Draft: Regenerate → Download → PDF shows correct status + fields	@CX0 @Document
31	Pending Approval: Regenerate → Download → PDF shows correct status + fields	@CX0 @Document
32	Released: Regenerate → Download → PDF shows correct status + fields	@CX0 @Document
33	Rejected: Regenerate → Download → PDF shows correct status + fields	@CX0 @Document

CXO Listing Page › Page Load & Structure

#	TEST CASE	TAGS
34	listing page loads with table rows	@Listing @Smoke
35	all listing tabs are visible	@Listing @Smoke
36	Create CXO button and pagination info are visible	@Listing @Smoke

CXO Listing Page › Tabs

#	TEST CASE	TAGS
37	switching to "My Pending Approval" activates that tab	@Listing @Tabs
38	switching to "Draft" activates that tab	@Listing @Tabs
39	returning to "All" tab shows records again	@Listing @Tabs

CXO Listing Page › Sorting › Positive

#	TEST CASE	TAGS
40	sort Code column keeps records (first + second click)	@Listing @Sort
41	sort Subject column keeps records (first + second click)	@Listing @Sort
42	sort Date column keeps records (first + second click)	@Listing @Sort
43	sort Status column keeps records (first + second click)	@Listing @Sort

CXO Listing Page › Sorting › Negative

#	TEST CASE	TAGS
44	Code column values stay non-empty after sort (handles duplicates)	@Listing @Sort

CXO Listing Page › Search › Positive

#	TEST CASE	TAGS
45	search by partial code returns results	@Listing @Search
46	search by exact code returns at least one row	@Listing @Search
47	search by partial subject returns results	@Listing @Search
48	different-case search does not crash the page	@Listing @Search
49	clearing the search restores records	@Listing @Search

CXO Listing Page › Search › Negative

#	TEST CASE	TAGS
50	non-existent search term shows no results without crashing	@Listing @Search
51	spaces-only search does not crash the page	@Listing @Search
52	SQL-injection string does not break the page	@Listing @Search
53	XSS payload does not inject a script	@Listing @Search

CXO Listing Page › Search › Edge Cases

#	TEST CASE	TAGS
54	very long search string does not crash	@Listing @Search
55	special characters in search do not crash	@Listing @Search
56	unicode characters in search do not crash	@Listing @Search

CXO Listing Page › Filters › Positive

#	TEST CASE	TAGS
57	Status filter popup opens	@Listing @Filter
58	Created By filter popup opens	@Listing @Filter
59	filtering by Status updates the table	@Listing @Filter
60	filtering by Created By updates the table	@Listing @Filter

CXO Listing Page › Filters › Negative / Edge

#	TEST CASE	TAGS
61	non-existent user in filter search does not crash the popup	@Listing @Filter
62	special characters in filter search do not crash the popup	@Listing @Filter

CXO Listing Page › Pagination › Positive

#	TEST CASE	TAGS
63	pagination info shows "Showing X – Y of Z entries"	@Listing @Pagination
64	Previous is disabled on the first page	@Listing @Pagination
65	Next page changes the pagination range	@Listing @Pagination
66	Next then Previous returns to the original range	@Listing @Pagination
67	Next is disabled on the last page	@Listing @Pagination

CXO Listing Page › Pagination › Negative / Edge

#	TEST CASE	TAGS
68	search on page 2 does not crash the page	@Listing @Pagination

CXO Listing Page › Row Navigation › Positive

#	TEST CASE	TAGS
69	clicking the first row code opens the detail page	@Listing @Navigation
70	browser back from the detail page returns to the listing	@Listing @Navigation

CXO Listing Page › Row Navigation › Edge Cases

#	TEST CASE	TAGS
71	refreshing the detail page keeps the URL intact	@Listing @Navigation

CXO Listing Page › Create CXO Button

#	TEST CASE	TAGS
72	Create CXO button opens the create page	@Listing @Create

21

Intake Negative

Intake create validation, workflow reject/recall, document lifecycle, and More-dropdown actions.

`testSuiteIntakeNegative.spec.js`

Intake Negative

#	TEST CASE	TAGS
73	Submit empty intake → blocked on create page with section error badges	@IntakeNegative @Validation
74	Empty submit → expanded sections show red borders + "is empty" messages	@IntakeNegative @Validation

#	TEST CASE	TAGS
123	sort Code column — first click applies a sort	@Sort
124	sort Code column — second click still shows records	@Sort
125	sort Subject column — applies a sort	@Sort
126	sort Subject column — second click still shows records	@Sort
127	sort Date column — applies a date sort	@Sort
128	sort Date column — second click still shows records	@Sort
129	sort Status column — applies a sort	@Sort
130	sorting after tab switch still works	@Sort

Aerchain NSE - Intake Listing Page › Sorting › Negative

#	TEST CASE	TAGS
131	column values remain non-empty after sort (no crash for duplicates)	@Sort

Aerchain NSE - Intake Listing Page › Search › Positive

#	TEST CASE	TAGS
132	search by partial intake code returns results	@Search
133	search by exact intake code returns at least 1 row	@Search
134	search by partial subject returns results	@Search
135	search by exact subject returns results	@Search
136	search with different case does not crash the page	@Search
137	clearing search restores all records	@Search

Aerchain NSE - Intake Listing Page › Search › Negative

#	TEST CASE	TAGS
138	non-existent search term does not crash the page	@Search
139	spaces-only search does not crash the page	@Search
140	SQL injection string in search does not break the page	@Search
141	XSS payload in search does not inject script	@Search

Aerchain NSE - Intake Listing Page › Search › Edge Cases

#	TEST CASE	TAGS
142	very long string in search does not crash	@Search
143	special characters in search do not crash	@Search
144	unicode characters in search do not crash	@Search

Aerchain NSE - Intake Listing Page › Pagination › Positive

#	TEST CASE	TAGS
145	pagination info shows "Showing X – Y of Z entries"	@Pagination
146	Previous button is disabled on first page	@Pagination
147	Next page changes pagination info	@Pagination
148	Next then Previous returns to original page	@Pagination
149	Next button is disabled on last page	@Pagination

Aerchain NSE - Intake Listing Page › Pagination › Negative / Edge Cases

#	TEST CASE	TAGS
150	rapid next-page clicks do not break the table	@Pagination

Aerchain NSE - Intake Listing Page › Pagination › Pagination after Filter / Search / Sort

#	TEST CASE	TAGS
151	search on page 2 does not crash the page	@Pagination
152	table shows correct rows on page 2 after sort	@Pagination

Aerchain NSE - Intake Listing Page › Row Navigation › Positive

#	TEST CASE	TAGS
153	clicking first row code opens the detail page	@Navigation
154	URL changes to detail URL after row click	@Navigation
155	browser back from detail page returns to listing	@Navigation
156	detail page contains the clicked intake code	@Navigation

Aerchain NSE - Intake Listing Page › Row Navigation › Edge Cases

#	TEST CASE	TAGS
157	back and re-click the same row is stable	@Navigation
158	refreshing the detail page keeps the URL intact	@Navigation

Aerchain NSE - Intake Listing Page › Create Intake Button › Positive

#	TEST CASE	TAGS
159	Create Intake button is visible on listing page	@Create
160	Create Intake button navigates to create page	@Create
161	URL is /intakes/create after clicking Create Intake	@Create
162	browser back from create page returns to listing	@Create

Aerchain NSE - Intake Listing Page › Create Intake Button › Edge Cases

#	TEST CASE	TAGS
163	navigating back from create page preserves listing rows	@Create

RFX Listing Page

#	TEST CASE	TAGS
164	listing page loads with table rows	@RFX @Listing @Smoke

RFX Listing Page › Search — Negative

#	TEST CASE	TAGS
165	non-existent search term shows no results without crashing	@RFX @Listing @Search
166	spaces-only search does not crash the page	@RFX @Listing @Search
167	SQL-injection string does not break the page	@RFX @Listing @Search
168	XSS payload does not inject a script	@RFX @Listing @Search

RFX Listing Page › Search — Edge Cases

#	TEST CASE	TAGS
169	very long search string does not crash	@RFX @Listing @Search
